What You Will Learn in This Course

Practical AI skills you can apply directly in OPD, clinic operations, and patient communication

1 CLINICAL DOCUMENTATION WITH AI

AI Scribe & Medical Documentation

- OPD notes generated with doctor supervision
- Structured patient history & examination notes
- Discharge summaries & medical instructions
- Consent forms, certificates & clinical documents

AI assists documentation — clinical judgment always remains with the doctor.

2 CLINIC AUTOMATION & FRONTDESK

Clinic Automation & Frontdesk Workflows

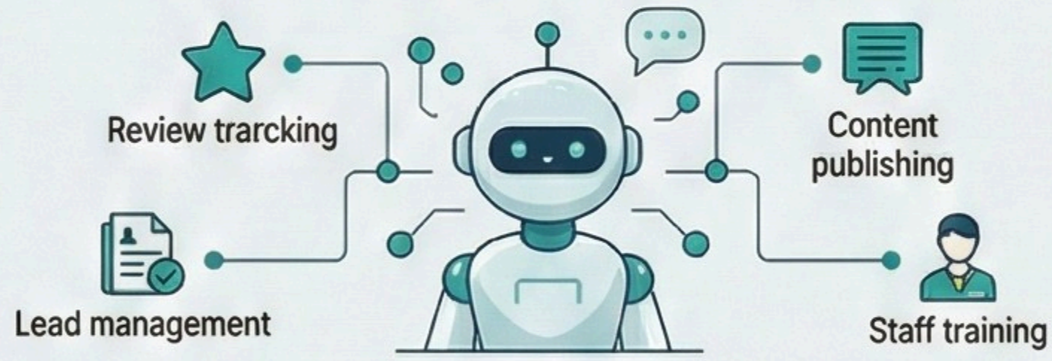

- Appointment scheduling & confirmations
- Automated follow-ups and reminders
- Investigation reminders & post-visit instructions
- Reduced frontdesk workload with AI support

3 WHATSAPP & PATIENT COMMUNICATION

4 AI AGENTS FOR CLINIC OPERATIONS

AI Agents for Daily Clinic Tasks

- Lead Manager AI Agent
- Review Monitoring & reputation tracking
- Content publishing & consistency
- Staff SOP training & standardization

AI agents act as digital assistants — not decision-makers.

Ethics • Indian DPDP Act • Medico-Legal Safety

- Safe boundaries for AI use in healthcare
- Patient data protection awareness
- Avoiding AI hallucinations & misuse
- Transparent communication with patients.

This Course Is Ideal For

Practicing doctors & consultants

Clinic & hospital owners

OPD-heavy practices. Doctors planning future-ready clinics
